Roselina Jane? from Patricia Lynn Helsley Gourdin, 20 May 2017

Yes, that is a picture of my Aunt Betty, of course never did meet her, but she and my mother looked very much alike. My mother is Shirley Mae Martin and I was looking at the family information and saw that you had entered some of the information and thought that we were connected through marriage. Young is a

common name like Jones and I have a good friend that is a Young (maiden name) and married a Young. I really appreciate you sending me a picture of my Aunt Betty. My mother talked a little about her, but not enough information except she died in Texas of a rupture appendix. Family history not a good memory for my mother, who died from the disease of alcohol at the age of 60. She was a sweet lady, would give her shirt off of her back, but suffered from a horrible disease. My parents were divorced when I was 11 and the youngest child was 3 months old. My brothers were 15 and 13. My dad was a contract miner and worked all over the Western states and worked in building the Mormon vaults here in Salt Lake. So we moved quite often and that complicated our ability to see our mother very often. She died in 1984 and I had seen her 3 times from 1961 to 1984. Thank you again.

Notes for Daniel Cady:

Cady unusual name has a number of possible sources, each with its own distinctive history and derivation. Firstly, it may be of Anglo-Saxon origin, representing a rare survival of the native Olde English personal name or byname "Cada", from an Old Germanic root word meaning "lump, swelling", possibly applied to a stout, plump person; the given name is also found as the first element of the placename Cadbury, and in Middle English became Cade.

Secondly, the surname may be of Old French and early medieval English origin, as a metonymic occupational name for a cooper, derived from the Old French and Middle English "cade", cask, barrel. Finally, the surname may derive from the Middle English homonym "cade", domestic animal, pet, specifically often used of a young animal left by its mother and brought up by hand as a domestic pet; in this instance the term was used as a nickname for a gentle, inoffensive person. The name is also found early in Scotland, where John Cady, tenant under the Earl of Douglas in 1376, is the first of the name recorded.
